Yoshimura, H.R.	1-73

Title Index

Number 1 **Page**

Hydrogen Analysis Applications and Requirements in Commercial Nuclear Plants 1
Instrumentation and Control Aspects of Retrofitting Utility Power Plants for District Heating Purposes 11
Fundamental Properties of Continous pH Control 25
Multicomponent Dynamometers Using Quartz Crystals as Sensing Elements 35
Noninvasive Echo-Doppler Duplex Measurements of Common Femoral Artery Blood Flow Variables During Supine Exercise and Post-Occlusive Reactive Hyperemia 47
A Human Factors Review of a Nuclear Plant Control Room 59
Temperature Measurements from Full-Scale Torch Tests on a Spent Fuel Cask Shipping System 73
Understanding Automatic Control Valve Noise 79
A Behaviorial-Biotelemetry System 87
Simulation of the Aerodynamic Effects of High-Altitude Heatshield Outgassing 95

Number 2 **Page**

Arc Control Experiments Using a High-Performance Arc Heater 1
Steam Temperature Control by Desuperheating 23
A High-Precision Load Cell Comparator for Large Mass 31
Adaptation of a Supercritical Unit to a Utility's Present and Future Generation Management Plans 49
Microprocessor-Based Pulse Rate Monitor 67
Two Boilers — One Turbine: Multiple Steam Blending System 75
A New Instrument for Whole-Field Stress Anaysis 85
Use of a Pressure-Sensitive Radiotelemetering Capsule to Study the Canine Gastric Interdigestive Complex 97
Microprocessor-Based Steamer Control Using Infrared Radiation 105

Title Index (Cont'd)

Number 3 **Page**

Liquid Center and Hot Center Rolling of Ingots Using On-Line Computer Control 1
Long-Wave Acoustic Flowmeter 9
The Design of Industrially Useful Adaptive Controllers 17
Infrared Thermometry for Low Emissivity Metals 27
Evaluation of Infrared and Photoionization Detectors in the Characterization of Complex Mixtures 33
The Precision Error in Temperature for Several Commerical Fixed-Point Baths 43
A Self-Tuning Controller 49
Automated Inspection of Hot Steel Slabs 59
The Industrial Detection and Evaluation of Control Valve Caviation 71
Distributed Control Using Fiber Optic Data Highway 81

Number 4 **Page**

The Electronic Switching Spherical Array Antenna for the Earth Radiation Budget Spacecraft 1
Hardware, Software, and System Considerations in Computer-Based Open Pit Mine Truck Dispatching 11
Cellsim and Cellgro: Tools for Cell Kinetic Modeling 21
Instrumentation Developed by the Bureau of Mines for Continously Monitoring Radon and Radon Daughters 25
A Finite Element Model for Phase Change Heat Transfer in a Composite Tissue with Blood Perfusion 33
Wideband Modem Characterization Testing 39
Automatic Measurement of Two-Phase Flow Velocity Using Image Correlation 47
Computational Model for the Ohio River Chutes at Louisville: The 1792 Virgin Conditions 55
Magnetic Resonance Measurement of Flowing Coal 69
White Sands Missile Range: A Phase-Difference Measuring Tracking System 77

Subject Index

	Number-Page
Analysis	
Hydrogen	1-1
Half-Fringe Photoelasticity	2-85
Infrared, Photoionization Detectors	3-33
Biomedical/Bioengineering	
Biobehavior - Biotelemetry	1-87
Doppler Duplex Measurement of Blood Flow	1-47
Pressure-Sensitive Radio-telemetering Capsule	2-97
Pulse Rate Monitor	2-67
Control and Controllers	
Adaptive Controllers	3-17
Arc Heater Control	2-1
Control Valve Cavitation	3-71
Control Valve Noise	1-79
Human Factors in Nuclear Plants	1-59
pH Control	1-25
Self-Tuning Controller	3-49
Steam Temperature Control	2-23
Electro-Optics	
Fiber Optic Data Highway	3-81
